

Golden Wax 444 Soy Wax

Golden Wax 444 Soy Wax is a container wax with a soy based additive that reduces frosting and allows the wax to hold more fragrance than a pure soy wax. Golden Wax 444 Soy Wax has a higher melt point than Golden Wax 464, helping the candles to hold their shape better in warm weather.

Single pour with a smooth re-congealed burn pool. Designed for use in container candles and tealights.

Description

Specially formulated soy wax flakes for container candle and wax applications.
